

# PRASHAM KUMBHARE

STUDENT | BTECH CSE

## PROFILE

Enthusiastic Computer Science Engineering student seeking opportunities to apply technical knowledge in real-world projects. Dedicated to developing scalable software solutions, learning emerging technologies, and continuously improving through hands-on projects and professional certifications. Strong problem-solving, analytical, and teamwork skills, with a passion for creating innovative applications that deliver meaningful impact while adapting quickly to new technologies and industry challenges.

## EXPERIENCE

|                                  |                   |
|----------------------------------|-------------------|
| <b>Growth and Product Intern</b> | <b>Apr - June</b> |
| <b>Budlee AI</b>                 | <b>2026</b>       |

Contributed to product research, feature planning, and user testing to improve application quality and user experience. Collaborated with cross-functional teams, documented product requirements, analyzed user feedback, and supported development activities while gaining practical exposure to product management, innovation, and agile workflows.

|                                   |                   |
|-----------------------------------|-------------------|
| <b>Community Technical Intern</b> | <b>May - July</b> |
| <b>Reelief Foundation</b>         | <b>2026</b>       |

Provided technical support for organizational operations by managing digital records, assisting with IT-related tasks, and improving documentation processes. Worked with the team to streamline workflows, support community initiatives, maintain operational efficiency, and contribute to technology-driven solutions for the foundation's activities.

## EDUCATION

## SKILL

- **DY Patil International University**  
**BTech Computer Science Engineering And Application**  
**2025 - 2029**
- **St Paul Public School And Junior College | PCM |**  
**89.83%**  
**2023 - 2025**

- Python
- C
- C++
- HTML
- CSS
- Javascript
